LANGUAGES AND TECHNOLOGIES
- **Proficient:** JavaScript, Express, HTML, CSS, Sequelize, React, Redux, HTML5, Git.
- **Exposure:** PostgreSQL, Material UI, CSS, TDD (Mocha, Chai, Jasmine), Socket.io.
- **Some Experience:** SQL, Heroku, OAuth, Heroku, Travis CI, JQuery.

TECHNICAL PROJECTS
Fullstack Developer | **Event Share** | event-share.herokuapp.com
Collaboration tool that facilitates the organization of an event by letting a hosting user manage the logistics with event guests.
- Implemented back and front end to allow users to create an option to vote, store and see results of a customized poll.
- Utilized Sequelize to set up tables and their associations along with validations to ensure smooth user experience.
- React, Redux, Express, Sequelize, Material UI, API Integration.

Fullstack Developer | **Plantagram** | plantagram.herokuapp.com
E Commerce site which sells plants to users including seasons and living conditions sub categories and google integration
- Used Local Storage to save guest users cart activity while not logged in.
- Created custom middleware for user security, implemented administrative privileges.
- React, Redux, Express, Node.js.

PROFESSIONAL EXPERIENCE
Senior Software Engineering Teaching Fellow | **Fullstack Academy of Code** | NY, NY   Nov 2020 - Feb 2021

- Project team management including conducting code reviews, directing students as they implement MVPs for projects from ideation to deployment.
- Conduct Fellowship interviews for potential fellows and mock technical interviews for graduating students.
- Led workshops focusing on algorithm approaches and technical problem-solving.
- Mentored a team of Teaching Fellows while advising 40+ students throughout Fullstack Academy's program; explaining Sequelize, PostgreSQL, Express, React, Redux, Node, full stack data flow and problem solving.

Software Engineering Teaching Fellow | **Fullstack Academy of Code** | NY, NY   July 2020 - Oct 2020
- Conducted technical interviews for prospective students, assessing JavaScript knowledge.
- Provided one-on-one technical support, leading office hours, and reviewing coding assignments and exams.

Event Manager | **38 Parlor** | NY, NY   Sept 2019 - July 2020
- Synchronize all necessary departments to ensure all setups, invoices, post-event summaries, and activities.
- Worked closely with each client to ensure successful floor plans, timelines, and agendas for each event.

Assistant Floor Manager | **Studio Square Garden and Event Space** | LIC, NY   May 2014 - Nov 2018
- Consistently exceeded sales goals averaging $100,000 for well promoted events.
- Decreased labor costs by analyzing team members strengths versus customer flow by 22%.
- Increased bar revenue through the development and marketing featured cocktails from limited resources.

EDUCATION
Fullstack Academy | Software Engineering Immersive   July 2020
Web Development Fellowship | NYC Tech Talent Pipeline | The Knowledge House   January 2019
Project Code | NYPL Tech Connect   February 2019

Volunteer Work | Code Nation   Oct 2020 - Present
- Equip students in under-resourced high schools with the skills, experiences, and connections that create access to careers in technology teaching HTML, CSS, jQuery, and JavaScript
